MEDTRAK CONCUSSION PROGRAM

MedTrak is already a leader in the vestibular and fall-risk assessment marketplace
Recent studies have shown VNG and balance testing to be **objective testing for concussions**

Here is what sets MedTrak apart from the competitors and will make us a leader in
concussion detection:

The **MedTrak CONCUSSION PROGRAM** includes the following necessary components:

- 1) VNG testing (MedTrak)
 - 2) Balance and coordination testing (FallTrak II)
 - 3) Neurocognitive testing (Braincheck)
 - 4) Instant narrative interpretation reports (Interpra)
and online report storage for easy future accessibility (HIPAA compliant)
 - 5) Physical therapy and rehabilitation training and support (CEU credits)
 - 6) Educational materials and courses
 - 7) Our newest text book
- The MedTrak program provides a complete package for properly handling concussions
 - MedTrak offers the highest standards of service and support
 - MedTrak is owned and run by a clinician with 30+ years of experience, not salesman
 - Quality patient care is our business foundation
 - MedTrak has stood the test of time during the last 2 decades as durable and dependable
