The MedTrak VNG “DEMO-FINANCE” program has been designed to assist clinicians who need **financial assistance** in order to obtain our VNG and balance plate equipment.

**Here is how it works:**

Your office will receive instant credit at zero percent interest for the 2 years of this financing.

MedTrak will send you its full package of new equipment, which includes its VNG equipment, a Varioair caloric irrigator, a FallTrak II balance plate with perturbed testing pad and two lap top computers fully loaded with our software.

MedTrak will send a proficient trainer/installer/technician to your office for 2 days of technician training AND testing of live patients during that training period (billable).

The 2 days of this training and testing will be prearranged so that the practitioners have time to schedule enough patients to cover all or most of the cost of the down payment.

Initial Down payment:	\$ 7,000
Monthly payments:	\$ 750 per month for 24 months
<u>Final payment</u>	<u>\$ 1 to own the equipment</u>
Total	\$ 25,001

**Opt out at any time** during the 24 month payment plan by returning the equipment (undamaged) and there are no further obligations of any kind and NO future payments due. Any money paid by the clinician prior to their decision to opt out is non-refundable.

Demo-Finance Customers equipment remains covered by the MedTrak warranty for 2 years provided they remain up-to-date on their monthly payments. Thereafter, extended one year warranties are available for purchase at \$900 per year.

MedTrak’s dedication to training and support services remains available for all of the discounted equipment packages including the Demo-Finance program.
